

Project Summary

Rocky Mountains Cooperative Ecosystem Studies Unit

Project Title: Development of a Resource Management and Monitoring Protocol for Areas of Energy Extraction

Type of Project: Research

Project Discipline: Natural

Funding Agency: Bureau of Land Management

Other Partners/Cooperators: Colorado State University

Effective Dates: 7/1/2009 - 6/30/2011

Funding Amount: \$57,513 [FY10: \$16,776; FY09: \$40,737]

Investigators and Agency Representative:

Agency Contact: James Michels, BLM- White River Field Office, 220 East Market St., Meeker, Colorado 8164; 970 878-3821; jim_michels@blm.gov

Investigator: David Swift Natural Resource Ecology Laboratory, Campus Mail 1499, Fort Collins , CO 80523-1499; Phone: (970) 491-1981; davesw@nrel.colostate.edu

Project Abstract: The principle purpose of this agreement is to obtain technical assistance and support from Colorado State University's Natural Resource Ecology Lab (NREL). NREL will develop a spatially explicit GIS-based Resource Management and Monitoring Protocol to serve as an integrated, largely quantitative approach to effectively manage the White River Field Office at a landscape scale.

Outcomes with completion dates: June 30, 2011

Keywords: Resource Management and Monitoring Protocol energy extraction, White River Field Office, Bureau of Land Management, Colorado State University
