

Project Summary
Rocky Mountains Cooperative Ecosystem Studies Unit

Project Title: Support for National Center for Landscape Fire Analysis
Type of Project : Research
Project Discipline: Natural
Funding Agency: BLM, USFS
Other Partners/Cooperators:
Effective Dates: 6/1/01 – 12/31/07
Funding Amount: \$11,821,000
Investigators and Agency Representative (include name, address, phone, email): LLoyd Queen, Director, National Center for Landscape Fire Analysis, (406) 243-2709, lpqueen@ntsg.umt.edu
Project Abstract: Develop a Center of National Fire Analysis at the University of Montana. The Focus of this Center is to engage with fire research and fire management agencies in cooperative research and technology development. The Center will develop, integrate, and synthesize remote sensing and other landscape scale applications for fire management.
Outcomes with completion dates (reports, publications, workshops, videos, etc.):
Keywords: fre research, fire management, remote sensing

Attach any appropriate supporting materials.
