

# Pryor Mountains

B. E. Nelson, R. L. Hartman

Inventory dates: 2008, 2009

- **Results & Data**

This represents a staff project by **B. E. Nelson** and **R. L. Hartman**. Fieldwork was conducted during the summer of 2008 and again 2009. The area encompasses the Pryor Mountains north to the Crow Indian Reservation and the adjacent Bighorn Basin to the south and west to the Clarks Fork Yellowstone River (Carbon County) for a total of 535 mi<sup>2</sup> ranging in elevation from 3,700 to 8,786 feet. Collected were 2,020 specimens (556 unique taxa thus far). Funding is provided by the Custer National Forests, Bureau of Land Management, and the University of Wyoming.
