

CSU/NPS Project Final Report

Project Title: Continuation of the Development of Natural Resource Education and Public Outreach Programs and Techniques	NPS Task Order #: J2380402409 Mod 4 CSU project # 4129
Principal Investigator Name: Dr. Jim Loftis Colorado State University – Department of Civil & Environmental Engineering	Office Phone: 970-491-2667 Office Fax: 970-491-7707 Office Email: loftis@engr.colostate.edu
Address: Department of Civil and Environmental Engineering Colorado State University Fort Collins, CO 80523-1372	
Federal Project Manager: Mike Whatley	Additional Federal Project Staff: Sara Melena
Project Objectives:	
The goal of this project is to provide guidance and technical support to the Natural Resource Program Center of the National Park Service, to assist with development of natural resource education and communication methods and techniques for internal and public audiences.	
Project Activities:	
Science Communication Workshop Planning Web-based movie modules of interviews with scientists	
Project Accomplishments:	
This project accomplished a number of activities and products that support science communication in the North Coast and Cascades Inventory and Monitoring Network (NCCN). As a result of this project the NCC held a science communication workshop with interpreters, resource managers, scientists and park managers. At this workshop, participants worked on ways to communicate science in the parks. This workshop served as a catalyst for on-going science communication efforts. This project also supported the development of a series of movies about science in NCCN parks. The NRPC and CSU collaborated to develop the movies storyboards, interviewing, filming, editing, and distributing the movies.
