

**Project Summary**  
**Rocky Mountains Cooperative Ecosystem Studies Unit**

Project Title: Rocky Mountain Inventory and Monitoring Network Soils Monitoring Project

Discipline: Natural Resources  
Type of Project: Technical assistance  
Funding Agency: National Park Service  
Other Partners/Cooperators: Colorado State University  
Effective Dates: 8/15/2009-12/31/2012  
Funding Amount: \$26,176

**Investigators and Agency Representative:**

NPS Contact: Mike Britten, NPS, Rocky Mountain I&M Network, 1201 Oak Ridge Dr., Fort Collins, CO 80525; 970-267-2150; Mike\_britten@nps.gov

Investigator: James Self, Colorado State University, Soil, Water, and Plant Testing Lab, Room A319, Natural and Environmental Sciences Building, 200 West Lake Street Fort Collins, CO 80523-1120 USA; (970) 491-5061; jimself@lamar.colostate.edu

**Project Abstract:** Colorado State University will assist Rocky Mountain Inventory and Monitoring Network (ROMN) with the analysis of soil samples. The number of samples and their timing will vary with year. In 2009, we expect to collect 150 samples between June and September. In 2010, we expect to collect 40 samples and in 2011, we expect to collect 30 samples. This schedule will likely vary over the timeline for the project but the total number of samples will be 220.

**Outcomes with Completion Dates:** Due Date for Final Report and/or Other Products: Data for lab analyses should be delivered in a final format by January 31 of the following year. The final report and all products will be provided at the end of the project.

**Keywords:** Rocky Mountain Inventory and Monitoring Network (ROMN), Colorado State University, soil samples
