<p><b>Project Abstract:</b>  The fire management office of Grand Teton National Park currently has 13 record boxes, three file drawers, and numerous maps and photographs on site related to the history and management of fire within Grand Teton National Park. The records include original correspondence, reports, and other operations related material including both official and non-official records. The items are stored in multiple locations in the maintenance facility behind the Moose Visitor Center at Moose, Wyoming.</p> <p>The goal of the project is as follows: To develop a sustainable records management and archives system for the Fire Management Office of Grand Teton National Park addressing proper storage, fire and theft protection, accessibility, and sustainability.</p>
<p><b>Outcomes with completion dates:</b>  The CU-Denver investigator will complete archive checking, file organization and labeling of files. Final products will include a Folders List with label information and Finding Aid in Excel format.</p>
