

**SITE/SENSOR DESCRIPTION FOR CLIMATE STATIONS IN THE GRYN**

**Adapted for the GRYN from “*RAWS STATION NARRATIVE SUPPLEMENT*”**

Original Document Available at: <http://www.fs.fed.us/raws/forms/narrative.shtml>

STATION INFORMATION: (station name)

Equipment Manufacturers:

Weather Service Number, RAWS ID or other agency identifier:

Latitude:      Longitude:

Elevation:

1. If Station is Automated (e.g. GOES link, etc): Transmit Channel:      Transmit Time  
(GMT):

2. Total Tower Height:

3. Description of Shielding:

4. Orientation:

**Information Related to Individual Sensors:**

5. Precip Gauge Unheated or Heated:      Height:      Make:

6. Air temperature sensor:            Height:    Make:

7. Soil temperature sensor (yes/no):        Depth:        Make:

8. Wind Speed:            Make:            Height:

9. Wind Direction:        Make:            Height:

10. Relative Humidity:        Make:            Height:

11. Software Type/Version:

**Description of Surrounding Vegetation/Topography/Structures:**

**Photographs Taken:**

**Notes:**
