

Rocky Mountains Cooperative Ecosystem Studies Unit
Project Summary

Project Title: Technical and Professional Assistance to the Greater Yellowstone Network, National Park Service

Discipline: Natural

Type of Project: Technical Assistance and Education

Funding Agency: National Park Service

Other Partners/Cooperators: Montana State University

Student Participation: Yes, Student Interns and Graduate Student

Effective Dates: September 1, 2020 to August 31, 2025

Funding Amount: \$40,000

Investigators and Agency Representative:

NPS ATR: Kristin L. Legg, Program Manager, National Park Service, Greater Yellowstone Network, 2327 University Way, Suite 2, Bozeman, MT 59715, 406-994-7734, Kristin_legg@nps.gov

Investigator: Bruce Maxwell, Institute on Ecosystems Co-Director, Montana State University, 718 Leon Johnson Hall Bozeman, MT 59715, (406) 994-5717, Fax: 406-994-3933, bmaxwell@montana.edu

Project Abstract:

Project Goals – The overall goal of the project is for the GRYN to partner with MSU and work with students and academic professionals to assist with monitoring projects ranging from field work, GIS programming, report preparation, library research, administrative tasks, and data management needs. Enterprising students may also develop a project affiliated with GRYN's work for a class project, public outreach, or other similar venue to develop communication skills.

Project Objectives – Provide internship, research, and employment opportunities for MSU students and professionals to participate in GRYN projects. Provide the GRYN with opportunities to: mentor students and professionals in the field of natural resources and pass on knowledge and experience to increase understanding of national park management.
