

Project Summary

Rocky Mountains Cooperative Ecosystem Studies Unit

Project Title: Wetlands Delineation at Glacier National Park
Type of Project: Technical Assistance
Funding Agency: National Park Service, Glacier National Park
Effective Dates: June 8, 2001 - December 1, 2001
Funding Amount: \$6,000
Investigators and Agency Representative: UNIVERSITY CONTACT: Dr. Don Potts (PI), Associate Dean, 406-243-6622 INVESTIGATOR: John DeArment, Graduate Student, 406-829-1345 NPS CONTACT: Tara Carolin, Plant Ecologist, Glacier NP, 406-888-7919
Project Abstract: The cooperator will be expected to perform delineation mapping of wetlands in specified developed areas in Glacier National Park. The primary objective will be to obtain a basic delineation, but details on characteristics, functional-level and classification are desirable. A few sites simply require verification that wetlands are not present. Most will require some degree of delineation. A list of priority areas for searching is included below; most sites are associated with the Going-To-The-Sun Road (GTSR). 1) Many Glacier Developed Area -Swiftcurrent shoreline -Horse concession area -Swiftcurrent Creek near Many Glacier Campground 2) Rising Sun/Rose Creek Developed Area; also try to locate wetland NE or E of housing/cabin area 3) Two Medicine Developed Area -Shoreline -Appistoki Creek 4) Apgar Developed Area -Shoreline -Lower McDonald Creek from outlet of lake to Camas Road 5) Moose Country along GTSR 6) Logan Pit along GTSR 7) Packers Roost 8) Lake McDonald Lodge Area -Shoreline -Snyder Creek -Horse concession area 9) Pulloff area southwest of Avalanche 10) Fish Creek Campground entrance 11) Goat Haunt along Cleveland Creek 12) St. Mary housing area along Divide Creek 13) Walton Developed Area
Outcomes with completion dates: <ul style="list-style-type: none"> ● Narrative report describing methods used, areas searched, and work accomplished. ● Copies of field data sheets. ● Wetlands delineated on aerial photographs with accompanying GPS points.
Keywords: Glacier National Park, wetlands
