phil.condon@mso.umt.edu

Project Abstract: The objective of this internship is to produce text and images for the Crown of the Continent Research Learning Center's (CCRLC) website and other communication pieces. The summer 2014 intern will work as a science communication technician in Glacier National Park underneath the science communication arm of the CCRLC. The position is mainly in the office with long days of screen time. Job duties will include the following:

- Proficient writing skills.
- Science background or an understanding of basic science principles.
- Experience in gathering information and researching various natural and cultural resource topics.
- Ability to use Adobe InDesign or similar desktop publishing software.
- Experience developing content for online publications.
- Photography and video skills are welcome.

Outcomes with Completion Dates: Final Report - November 30, 2014
