

## Project Summary

### Rocky Mountains Cooperative Ecosystem Studies Unit

|   |
|---|
| <b>Project Title:</b> Synoptic Review of River Invertebrate Data and Development of Monitoring Protocol for the Greater Yellowstone Network   |
| <b>Type of Project:</b> Technical Assistance/inventory and monitoring   |
| <b>Funding Agency:</b> National Park Service  |
| <b>Other Partners/Cooperators:</b> N/A  |
| <b>Effective Dates:</b> August 7, 2003 – August 31, 2005  |
| <b>Funding Amount:</b> \$10,000   |
| <b>Investigators and Agency Representative:</b><br>NPS Key Official: Susan O'Ney, Grand Teton National Park and Greater Yellowstone Network, P. O. Drawer 170, Moose, WY 83012, 307-739-3666, susan_o'ney@nps.gov<br><br>UNIVERSITY CONTACT: Dr. Charles P. Hawkins, Director<br>Western Center for Monitoring and Assessment of Freshwater Ecosystems,<br>Department of Aquatic, Watershed, & Earth Resources; 5210 Old Main Hill,<br>Utah State University, Logan, UT 84322-5210; 435-797-2280 (voice); 435-797-1871 (FAX)    |
| <b>Project Abstract:</b><br>The principal investigator and graduate student will collaborate with the parks of the Greater Yellowstone network and other researchers to accomplish the following:<br><br><div style="margin-left: 40px;"> (1) a final report summarizing the state of understanding of stream and river invertebrate assemblages in the GRYN, and<br/><br/> (2) a preliminary study plan for proceeding with the protocol development for Network long-term monitoring of stream and river invertebrates </div> |
| <b>Outcomes with completion dates:</b><br>(1) a final report summarizing the state of understanding of stream and river invertebrate assemblages in the GRYN and (2) a preliminary study plan for proceeding with the protocol development for Network long-term monitoring of stream and river invertebrates.  |
| <b>Keywords:</b> river and stream Invertebrates, Greater Yellowstone Network  |
