Project Abstract: This project is to be accomplished through the cooperative agreement with the University of Wyoming. This one work order has multiple distinct parts and is intended to resolve National Register eligibility for several sites, collect intensive inventory data, and prepare data recovery plans where it is anticipated that eligible sites will not be able to be avoided. These data will be used for Section 106 compliance.
Outcomes with completion dates: Final report; site form and site status evaluation form for each site (if investigations warrant).
Keywords: Yellowstone National Park, National Register, archeology
