

Project Summary
Rocky Mountains Cooperative Ecosystem Studies Unit

Project Title: Wyoming, Develop NHD Stewardship Program
Type of Project: Education
Project Discipline: Interdisciplinary
Funding Agency: USGS
Other Partners/Cooperators:
Effective Dates: September 30, 2007 – September 28, 2008
Funding Amount: \$25,000.00
Investigators and Agency Representative (contact information): PI: Paul Caffrey, Education Coordinator, Wyoming Geographic Information Center, University of Wyoming, 307-766-2770, caffrey@uwyo.edu
Project Abstract: The Objective of this project is to develop a NHD stewardship program for the state of Wyoming to educate the primary users of NHD about the multiple uses and applications of the NHD and the benefits of improving the dataset over time and to develop partnerships with key organizations to develop a network of sub-stewards who will be invited to participate in the design and support a long term-NHD stewardship program for Wyoming that can best function to facilitate the incorporation up updates to dataset as provided by the user community.
Outcomes with completion dates (reports, publications, workshops, videos, etc.):
Keywords: NHD Stewardship, Wyoming, partnerships
