Course Purpose 
This course explores theories and methods used by natural resource professionals to engage stakeholders in natural resource decision-making processes. In addition to understanding the sciences, professionals must know how to facilitate dialogue and create outcomes embraced by stakeholders. This course will prepare students to successfully participate in and lead decision-making processes that purposefully incorporate diverse interests to address complex natural resource issues.

Course Outcomes 
Upon completion of this course, students will be able to:

- Work constructively with diverse interests in group settings to promote creative solutions to natural resources conservation and management
- Recognize the guiding philosophies of participatory democracy and the social and psychological incentives affecting citizen involvement in public decisions
- Organize, convene, and facilitate a meeting of diverse stakeholders
- Communicate effectively in a persuasive manner in public settings and in writing

Required Readings 
Two books are required for this course:

- Other required readings for this course will be located on Moodle.

This course is designed to incorporate lectures, readings, discussions, activities, writing assignments, case study reviews, guest speakers, and public meetings to provide a range of learning opportunities for students. Current natural resource debates will be highlighted as illustrative examples.

Grading and Course Requirements 
Please note, this class is offered for traditional letter grade only, it is not offered under the credit/no credit option. This course will be graded on the following grading scale: 93-100 (A), 90-92 (A-), 87-89 (B+), 83-86(B), 80-82 (B-), 77-79 (C+), 73-76 (C), 70-72 (C-), 60-69 (D), <60 (F).
Grading and Course Requirements (continued)

Grades will be based on the following:

To be successful in this class, you will be expected to:

- Attend all classes, complete all readings, and actively participate in class activities & discussion
  - Brief and occasional absences may be excused for illness, injury, family emergency, religious observance or participation in a University sponsored activity
  - Absences will be excused for military service or mandatory public service
  - No absence will be excused without proper documentation
  - If you miss class, you are still responsible for the material. Please ask a classmate for the information before visiting me during office hours. Opportunities to make up missed assignments will only be offered to students who contact me beforehand and have a legitimate and documented reason.

- Attend one (1) public meeting outside class and complete a written critique about your experience and observations

- Complete two persuasive papers, which are essentially opinion-editorials of between 750-800 words.

- Complete one “synthesis” of a relevant natural resources topic of your choice. The synthesis paper will be 4-5 pages in length and contain at a minimum 10 citations from legitimate sources (books, technical papers, interviews, or articles from respected journals). The content of the synthesis should be geared for a lay audience – think of a volunteer participant in a collaborative group.

- Complete and submit all assignments on time. All assignments are due at the start of class on their due date, unless otherwise noted. Assignments must be submitted in both printed and electronic format (electronic formats to the Assignments Page in Moodle). Any writing assignment submitted after the due date will lose 10 percent of the possible grade each day. In certain circumstances, late papers will be accepted if you contact me at least 48 hours before the due date/time with a legitimate reason.

- Complete both the mid-term and final examinations on the dates scheduled in class. On rare occasions a make-up exam will be offered for a legitimate excuse, but please note, make up exams are harder.

**Academic Honesty**

All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or a disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code. The Code is available for review online at [Student Conduct Code](http://www.umt.edu/vpsa/policies/student_conduct.php). Plagiarism will not be tolerated; all plagiarism will result in one of the following: zero credit for the assignment, zero-credit for the course, and/or reference to the Provost and Vice President for Academic Affairs.
**Equal Access**

The University of Montana assures equal access to instruction through collaboration among students with disabilities, instructors, and Disability Services for Students. If you have a disability that adversely affects your academic performance, and you have not already registered with Disability Services, please contact Disability Services in Lomasson Center 154 or 406.243.2243. I will work with you and Disability Services to provide an appropriate modification.

**Upper-Division Writing Courses**

NRSM 379 is an upper-division writing course within the College of Forestry and Conservation. These courses are designed to give students more experience with college-level writing. The following are the writing course learning outcomes and upper-division writing requirement in the major outcomes:

Writing Course Learning Outcomes:
- Use writing to learn and synthesize new concepts
- Formulate and express written opinions and ideas that are developed, logical, and organized
- Compose written documents that are appropriate for a given audience or purpose
- Revise written work based on constructive feedback
- Find, evaluate, and use information effectively and ethically
- Begin to use discipline-specific writing conventions
- Demonstrate appropriate English language usage

Upper-Division Writing Requirement in the Major Outcomes:
- Identify and pursue more sophisticated questions for academic inquiry
- Find, evaluate, analyze, and synthesize information effectively from diverse sources
- Manage multiple perspectives as appropriate
- Recognize the purposes and needs of discipline-specific audiences and adopt the academic voice necessary for the chosen discipline
- Use multiple drafts, revision, and editing in conducting inquiry and preparing written work
- Follow the conventions of citation, documentation, and formal presentation appropriate to that discipline
- Develop competence in information technology and digital literacy
