

FOR440 Timber Stand Management / Service Learning

Instructors:

Beth Dodson

Office: FOR 201B
Phone: (406) 243-5542
Cell: (406) 396-6893
Email: elizabeth.dodson@umontana.edu

Carl Seielstad

Office: CHCB 441
Phone: (406) 243-6200
Cell: (406) 274-0914
Email: carl.seielstad@firecenter.umt.edu

John Goodburn

Office: FOR 201A
Phone: (406) 243-4295
Email: john.goodburn@umontana.edu

Andrew Larson

Office: CHCB 405A
Phone: (406) 243-5521
Email: a.larson@umontana.edu

Class Times:

One 1-hour lecture (FOR 206): W 11:00 – 11:50
Lab (FOR 305 or Field): W 12:00 – 5:50

Required Text:

Water Quality BMPs for Montana Forests.

Required Equipment:

Hunter orange or other high-visibility outerwear (required after Oct. 23)
Bear spray (recommended)

Prerequisites:

FORS 202 Forest Mensuration
FORS 341 Timber Harvesting and Roads
FORS 349 Silviculture

Course Description:

“The management and manipulation of the timber resource on private lands to reach multiple objectives, with a focus on the planning of forest operations.”

These goals will be met through a hands-on, semester-long, group-based service learning project. Service Learning is a method of teaching and learning in which students, faculty and community partners work together to enhance student learning by applying academic knowledge in a community-based setting. Student work addresses the needs of the community, as identified through collaboration with community or tribal partners, while meeting instructional objectives through faculty-structured service work and critical reflection meant to prepare students to be civically responsible members of the community. At its best, service learning enhances and deepens students' understanding of an academic discipline by facilitating the integration of theory and practice, while providing them with experience that

develops life skills and engages them in critical reflection about individual, institutional, and social ethics.

Course Learning Objectives:

- *Design and conduct a forest inventory.*
- *Set specific management goals for a forest stand based on the overarching management goals of the community partner.*
- *Design silvicultural systems and associated operational plans to meet various management goals.*
- *Present a timber management plan and a timber sale bid package in writing and verbally to clients (community partners) and potential bidders.*
- *Develop a prescribed burn plan that dovetails with the silvicultural plan and is implementable (where applicable).*
- *Hone written and verbal communication skills.*
- *Solidify your own professional and land ethic.*

FORS 440 is one of the FCFC's distributed upper-division writing courses.

Writing Course Learning Outcomes

- Use writing to learn and synthesize new concepts
- Formulate and express written opinions and ideas that are developed, logical, and organized
- Compose written documents that are appropriate for a given audience or purpose
- Revise written work based on constructive feedback
- Find, evaluate, and use information effectively and ethically
- Begin to use discipline-specific writing conventions
- Demonstrate appropriate English language usage

Upper-division Writing Requirement in the Major Outcomes

- Identify and pursue more sophisticated questions for academic inquiry
- Find, evaluate, analyze, and synthesize information effectively from diverse sources
- Manage multiple perspectives as appropriate
- Recognize the purposes and needs of discipline-specific audiences and adopt the academic voice necessary for the chosen discipline
- Use multiple drafts, revision, and editing in conducting inquiry and preparing written work
- Follow the conventions of citation, documentation, and formal presentation appropriate to that discipline
- Develop competence in information technology and digital literacy

Course Policies:

- All assignments are due at the BEGINNING of class unless otherwise specified. Late assignments will lose 10% of the potential points per day late.
- All work must be neat, legible and complete.
- All individual work will be submitted on-line through the class Moodle unless otherwise specified. Graded assignments will also be returned electronically. Use of "track changes" will greatly speed the return of resubmitted work.
- While you are allowed to work with fellow students on individual assignments, all submitted assignments must represent your own individual work.
- Group assignments may be resubmitted as many times as necessary (up to the final deadline) to obtain the grade and quality of work desired.
- Individual assignments may be resubmitted once within one week of when they are returned to students to receive up to ½ the missing points.
- All course communication (announcements, assignments, schedule with due dates) will be via email and posted on the course Moodle, available through the UMOonline home page. The course Moodle can be accessed from any computer with internet access.
- Students with disabilities may request reasonable modifications by contacting the instructors. The University of Montana assures equal access to instruction for students with disabilities in

collaboration with instructors and the Office of Disability Equity, which is located in Lommasson Center 154. The University does not permit fundamental alterations of academic standards or retroactive modifications.

- *All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or a disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code. The Code is available for review online at [Student Conduct Code](#). Note that the Student Conduct Code also includes a requirement that masks be worn at all times in classrooms and shared transportation.*

COVID-Specific Policies:

- Mask use is required within the classroom.
- If you feel sick and/or are exhibiting COVID-19 symptoms, please don't come to class and contact the Curry Health Center at (406) 243-4330.
- If you are required to isolate or quarantine, you will receive support in the class to ensure continued academic progress. Please contact Beth or Carl to develop a plan to keep you engaged in the class.
- UM recommends students get the COVID-19 vaccine. Please direct your questions or concerns about vaccines to Curry Health Center.
- Where social distancing (maintaining consistent 6 feet between individuals) is not possible, specific seating arrangements will be used to support contact tracing efforts.
- Class attendance and seating will be recorded to support contact tracing efforts.
- Drinking liquids and eating food is discouraged within the classroom.
- Mask use is required in vehicles when traveling to field sites as part of class/fieldwork.
- Please note this class may be recorded.
- Transportation will be provided for all field activities and appropriate distancing will be accommodated to the extent possible. Each group will be assigned a vehicle and students will not share transportation with other groups.
- Students are allowed to drive their own vehicles to any field trip, but need to communicate with the instructor at least 48 hours prior to the day of the field trip. Students who drive their own vehicles will not be reimbursed for mileage and are covered only by their own auto insurance. If students choose to drive together (car pool), please note the driver is liable for not only themselves but also the passenger (as with any private vehicle). If you have a passenger in your vehicle, we recommend that you follow all safety recommendations for UM group travel:
 - Face masks required in all shared vehicles.
 - If running heat or air conditioning, recirculating vehicle air should be disabled.
 - All occupants of shared vehicles should travel in the same vehicle for the duration of the trip. In cases where driver fatigue occurs, wipe down high touch areas in both seating areas with appropriate disinfectant before switching drivers.

Important Dates:

Deadline	Description
To 15 th instructional day	Students can drop classes on CyberBear with refund
16 th to 45 th instructional day	A class drop requires a form with instructor and advisor signature, a \$10 fee from registrar's office, student will receive a 'W' on transcript, no refund.
Beginning 46 th instructional day	Students are only allowed to drop a class under very limited and unusual circumstances. Not doing well in the class, deciding that the class grade might negatively affect your GPA, and similar reasons are not among those limited and unusual circumstances. Requests to drop must be signed by the instructor, advisor, and Associate Dean and a \$10 fee applies.

Grading:

Please note, this class is offered for traditional letter grade only, it is not offered under the credit/no credit option.

Grades will be based on both individual and group work assigned during the term. All work may be edited and resubmitted (see above). The standard +/- grading scale will be used. All efforts will be made to return graded work within one week of when it is turned in. Posted grades will be updated continuously.

Individual writing assignments:	20%
Group writing assignments:	50%
Weekly briefings:	20%
<u>Final presentation(s):</u>	<u>10%</u>
Total:	100%

Graduate Increment

This course may be taken for graduate credit. Any student wishing to exercise this option will work with the instructor(s) to develop an appropriate individual project above and beyond the undergraduate expectations. This individual project will be designed to benefit both the student seeking graduate credit and the course as a whole. An example of this graduate increment would be a lecture developed by the graduate student and delivered to the class, including appropriate handouts, on a topic that advances the graduate student's understanding of a topic of importance to her/his professional or graduate career that also addresses a question of importance to the class.

Schedule

To be determined by the class on September 8. Lectures TBD based on need and request.

Individual Writing Assignment

All students will attend college-wide seminar presentations, either live or recorded, focused on diversity, equity, and justice issues within the broad field of natural resources. Each student will individually submit an approximately 2-page reaction to each presentation, due by the second Wednesday following each presentation. Presentations are scheduled during the FCFC Graduate Seminar on Tuesdays, 4:00-4:50 pm. The class will be given notice when these presentations are scheduled. Reflection papers will be graded solely based on the quality of writing and may be resubmitted once per course policies (above).

Group Writing Assignments

Each group will prepare a written management plan that includes the following: inventory, silviculture, operations (including a burn plan where applicable), cost and revenue appraisal, and environmental assessment. These plans should be submitted via email to both Beth and Carl. We will return comments and edits within one week. Your group is expected to resubmit these documents until they are of professional quality.

Weekly Group Briefings

Each week, each group will be expected to give a briefing to the class as a whole. Specific briefing topics will be given out the week prior and posted on the class Moodle. Each member of the group is expected to give at least 2 briefings throughout the semester.

Final Presentation(s)

Final presentations will take place on December 8. Ideally, these presentations will be held in the field with an audience of professionals and faculty. The class will be notified if safety concerns dictate these presentations be moved to campus (due to weather or road conditions) or zoom (due to covid).
